Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The feature of a medicine packing apparatus that determines a belt configuration based on prescription data is known in the packaging arts (See e.g., Yuyuma et al., US '253). However, the additional feature of the separation of the package belts based on belt length by a distributing member with a reel and guide combination or by a gripping member and moving member combination renders the invention novel and non-obvious over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any references not explicitly discussed above but made of record are considered relevant to the prosecution of the instant application.
